

## Hardware Options

The standard hardware for the Series W9100, W9200, and W9600 operable vents are multi-point locking hardware.

The multi-point handle is available in black and white. The multi-points are not visible when the window is in closed position but are also available in black and white.

The minimum vent height for a casement is 22" but shall not exceed 60" in height. The minimum vent width for an awning is 22" but shall not exceed 48" in width.

### Options

1. 90° egress hinge.
2. Custodial restrictors.

### Multi-Point Locking Hardware

| HARWARE TYPE | COLOUR |
|--------------|--------|
| MP           | BLK    |
|              | WHT    |
