

## Series D4540 & D4640 (previously 4504 & 4506) Aluminum Compression Seal Sliding Balcony Door

### Hardware Options

The Series D4540 & D4640 Compression Seal Sliding Balcony Door has an interior handle made from zinc die-cast. The interior handle is a multi-point locking handle that positively engages with an adjustable keeper at the frame jamb. The interior handle is available in white and black.

The exterior handle is a raised pull tab made from made of high impact polycarbonate<sup>1</sup>. The exterior handle is available in black or white.

The sliding panel slides on ball bearing wheels.

Foot locks are not available.

Insect Screens are not available through Starline Windows. A retractable screen (such as Mirage or Phantom) can be installed to the structure after the door installation and Building Envelope is complete. This screen cannot be purchased from Starline however it can be purchased from a third-party supplier.

<sup>1</sup> If a reinforced sash is used, there is no exterior handle as the frame profile for a reinforced sash provides a place to grip to allow you to open and close the door. See the next page for an image.
